

Draw a current Environmental Problem.....

- Explain the problem, what is the possible cause
- Give a possible explanation or solution to the problem
 - DO NOT say "clean it up"
 - May need to use book to help you
- Explain a possible counter-argument that may be hindering the solution
 - Why someone may be against the issue

Possible Issues:

Ozone depletion

Air pollution

Water Pollution -freshwater and marine

Global Warming (greenhouse gases)

Deforestation

Burning fossil fuels

Oil Spills

Soil erosion
