

Fishing methods comparison

1. Using your laptop computer, connect to URL:
http://www.fishonline.org/caught_at_sea/methods/
 2. Read the various methods for catching fish
 3. Select two fishing methods of interest to you and (using PowerPoint or Keynote)* construct a Venn diagram comparing differences and similarities of the two methods.
 4. Save your file using your last name and fishing_venn,
For example: Lane_fishing_venn.ppt
 5. Copy your file to my teacher drop box
 - >Go
 - >Connect to server
 - monxserve01open teacher drop boxes and drag and drop you file on my drop box
- *You may use PowerPoint or Keynote. You will need to use one of these programs for presenting your chosen marine animal research assignment to the class in May.
