

Geographic Information Systems

Using the USGS.gov website, research some information about geographic information systems (GIS). Write down on a separate sheet of paper the following information:

1. History of GIS
 - How did it start
2. Information retrieval
 - What instruments are used to collect data?
 - How do they integrate them together?
3. Data Capture
 - What is the information used for?
 - How can it help with land use?
4. Future of GIS
 - What are some things that will improve this technology?
