

Reproductive Systems Project

I. Create Tour Brochures of the Reproductive System. This project will be worth **85 points**.

- format like a brochure
- TWO separate *drawings*-minimum, in each brochure, labeled properly

II. For each, you must include the following components. Each brochure is worth **25 pts**.

1. Reproductive System

- male vs female structure (draw/label)
 - a. male-testes, sperm (fig 1,3)
 - b. female-reproductive organs, ovarian cycle (fig 5,8)
- sperm production-explain
- egg production-explain

2. Stages of Development

- development: conception to birth
- cleavage and implantation (drawing fig 10 and explanation)
- Importance of pre-natal vitamins

3. Diseases of the Reproductive System

- Bacterial- treatment/cure
 - List types and symptoms
- Viral-treatment/cure
 - List types and symptoms
- Look at HIV/AIDS and create a bar graph of how many people contract it each year in the US vs. Worldwide (include at least five years).

III. Creativity and effort 10pts.

- The brochures should be colorful and creative in its design.
- The drawings should be easy to read and able to distinguish the different components.
