

SUBMERSIBLE RESEARCH ASSIGNMENT

You will work individually to research one of the listed submersibles (one will be assigned to you). You will create a power point/ keynote presentation with the following criteria. You must have a minimum of 5 slides, with at least one picture on each slide.

Once complete, you will drop the presentation into my dropbox @ MONXSERVE01.

SUBMERSIBLES:

- ◆ ALVIN
- ◆ ARGO II
- ◆ DOLPHIN 3K
- ◆ JASON/MADEA
- ◆ KAIKO
- ◆ NAUTILE
- ◆ JOHNSON SEA LINK
- ◆ SHINKAI 6500
- ◆ TRIESTE

Information to be Researched:

Slide 1: History of the Submersible

- who invented it
- what year it was invented
- what group/university/country owns it

Slide 2: Facts about the Submersible

- length of submersible
- number of persons that it can hold
- type of data the submersible collects
- type of technology that is used
- greatest depth to which it can descend

Slide 3/4: Trips/Voyages of the Submersible

- detail at least two trips that your submersible has operated
 - where did they go, what was the goal, people involved, etc
- discuss any unusual organisms that it observed

Slide 5: References

- list of webpages
