

## Music Poster Project

Create a new poster featuring your favorite band or singer. You will be designing a poster for an upcoming concert. If they broke up or not around any more, make it up. Let's pretend they are reuniting for a summer tour...

Include the following:

The band/musician

A background (grunge poster was a good example of something you can do)

The Name of the band or person (try drop shadow and bevel/emboss)

The date, time, and place of the concert (try drop shadow and bevel/emboss)

A larger background of a wall, or fence, or post where your poster is located.

You might try blending images of the person or band. Add some other music related images and use the one of the blending modes you just learned about.
