

Mid-Term Review

Chapter 1

- 1) Survey
- 2) Representative Samples
- 3) Naturalistic Observation
- 4) Correlation Coefficient
- 5) Median & Mean
- 6) Statistical Significance

Chapter 2

- 1) Threshold
- 2) Sensory Neurons
- 3) Neural Networks
- 4) Reticular Formation
- 5) Corpus Callosum

Chapter 3

- 1) Evolutionary Psychologist (What do they study?)
- 2) Temperament

Chapter 4

- 1) Assimilation & Accommodation
- 2) Harlow's Research Findings
- 3) Kohlberg's (What influences moral development?)
- 4) Erikson's (Trust vs Mistrust & Identity vs Role Confusion)
- 5) Fluid & Crystallized Intelligence

Chapter 5

- 1) What is the difference between sensation and perception?
- 2) Absolute Threshold
- 3) Signal Detection Theory
- 4) Sensory Adaptation
- 5) Parallel Processing

Chapter 6

- 1) Gestalt Psychologists
- 2) Depth Perception
- 3) Perceptual Set

Chapter 7

- 1) Dissociation
- 2) Night Terrors
- 3) Insomnia
- 4) Alpha Waves
- 5) Consciousness

- 6) Biological Rhythms
- 7) Circadian Rhythm
- 8) Hallucinations
- 9) Sleep Spindles
- 10) REM Sleep (What happens physically to us & How does it affect memories)
- 11) Increasing dream recall during REM
- 12) Effects of prolonged sleep deprivation
- 13) Narcolepsy
- 14) Sleep Apnea
- 15) Freud's Ideas on Dreams
- 16) REM Rebound
- 17) Hypnosis susceptibility
- 18) Posthypnotic Suggestion
- 19) Tolerance
- 20) Withdrawal

Chapter 8

- 1) Difference in associative learning between Operant & Classical Conditioning
- 2) Classical Conditioning (UCS, UCR, CS, CR)
- 3) Operant Conditioning
- 4) Ivan Pavlov
- 5) Acquisition
- 6) Spontaneous Recovery (What happens to the CR)
- 7) Generalization
- 8) Discrimination
- 9) Successive Approximations
- 10) Shaping
- 11) Reinforcer (Primary, Conditioned, Intermittent)
- 12) Fixed-Ratio Schedule
- 13) Fixed-Interval Schedule
- 14) Punishment
- 15) Cognitive Map
- 16) Latent Learning
- 17) Overjustification Effect
- 18) Intrinsic vs Extrinsic Motivation
- 19) Observational Learning
- 20) Modeling
- 21) Mirror Neurons

Chapter 9

- 1) Retrieval
- 2) Encoding (Errors in encoding)
- 3) Automatic Processing
- 4) Rehearsal
- 5) Serial-Position Effect
- 6) The Method of Loci

- 7) Chunking
- 8) Iconic Memory
- 9) Echoic Memory
- 10) Short Term Memory (Rule of 7)
- 11) Implicit Memory
- 12) Explicit Memory
- 13) Retrieval Cues
- 14) Déjà vu
- 15) Transience
- 16) Proactive Interference
- 17) Repression
- 18) The Misinformation Effect
