

Chapter 9 Reflection

In this chapter we covered several theorist and theories on human development. For this reflection, please talk about the following theorist as they apply to your own growth and development: Jean Piaget, Lawrence Kohlberg and Erik Erikson. Using their theories, talk about the stages of development that they described and how you have gone through these stages.

Please make sure that you include a title page, abstract and that the paper is a minimum of two and a half pages.
