

Drugs & Their Effects Assignment

Each group will be assigned a drug to research. You will look up facts and present your information. You will need to answer the following questions:

1. How is your substance made?
2. What are the effects of this substance on both the brain and the body?
3. What are the short-term negative effects of drug use?
4. What are the long-term negative effects of drug use?
5. Is this a physically and/or psychologically addictive drug?
6. What are the street/slang names?

You will need to either type the information in a word document or create a power point presentation. If you chose to write about your drug, it must be in 12pt Times New Roman, double-spaced with a maximum of 1" borders. It should be a minimum of two pages. A power point presentation should be a minimum of one slide per topic to be covered plus a title page (7 slides). In either presentation you may insert graphs or charts.
