

General Directions for Administering Maze Measures

Mazes are **group** administered and students read the passages **silently**.

1. Directions for administering mazes are included with the two passages to be administered.
2. Be sure to download and copy both passages for each assessment interval.
3. **Two passages** are to be administered and averaged to get the final score. The score is the number of correct responses the student gets. This averaged score is entered into whatever data management system is being used. **At this time, the PMRN is not available for mazes.**
4. Remember that the student reads each passage for **3 minutes**.
5. Be sure that students do not go back to passage 1 when they are to be starting passage 2. Monitor students to make sure they have moved to the second passage before beginning the timing for passage 2.
6. Scoring keys for each passage are available at this site.
